IVELY IN BEAVER COUNTY.

mber of Salt Lakers Spent Sunday mong the Copper Properties. in interest is being developed in

business or to size up the country e C. E. Hudson, F. H. Lathrap, cry M. Crowther, J. M. Reynolds and with Reeves brothers. Mr. Reynolds, Messrs. Reeves and others have a d on the Burning Moscow and Wild properties from Matthew Cullen they were down to inspect those perties. Mr. Crowther was down in Forenoon. | Afternoon. capacity as manager of the Blue e property, not distant from the K., while Messrs. Hudson and Laby were out to see the country.

Our train was late in reaching Mility yesterday morning," said Mr.

Ison, "so we did not see nearly as the as we should had we arrived on en as we should had we arrived on a However, I saw enough to conce me that there is really a large ount of activity in the districts in there—more than most people e any idea of—and it looks to me though that section was going to the quite a stir during the coming to

he Majestic company is working its ral properties in a lively fashion there seems to be no longer any bt that it means business. We did bt that it means business. We did have time to go underground any-re, but the evidences of thrift and vity were everywhere so apparent t we felt well repaid for our trip, the same. The Majestic company just got its big double compartment king shaft started and it is going n in ore from the grass roots. was greatly surprised at the won-ul mineralization of the country v which we traveled. A piece of c picked up most anywhere would w more or less copper when broken n and not one of the many dumps visited during the day but what visited during the day but what ied the red metal in greater or less

DELAY AT U. S. SMELTER, idents to Blowing Engine and

Tramway Hang Things Up. st at the moment when it was sup ed that everything was in shape to in operations at the United States pany's big smelter, a most dispany's big smelter, a most dis-sing accident occurred. It followed osely upon an accident to the aerial nway at the company's Bingham es, that the engineers of the com-y began to feel as though some sort a "hoodoo" was at work to delay

the machinery at the smelter been tried out with the exception he great blowing engines. Power turned into one of them upon the al being given by the agent of the schalmers company, from whom were purchased, and it moved off a veteran. Then the second one e way and in less time than it takes ell it, the ponderous, beautiful ma-e was terribly disabled. It will take time, it is said, to repair the dam-one, though the other engine may nto regular commission at most

ast after the starting or away a small nut or something not nuted for caused the grip holding that the carrying cable on the puckets to the carrying cable posen and down the wire the heavy of ore slid till it struck the next. The impast caused the second ket to strip the cable and slide with first. A wreck occurred at the struck occurred at the first. A wrock occurred at the first er down the hill and not until Satury was the damage repaired and the ation of the tram resumed. Either accident could be foreseen. It were simply the result of the me which is always taken in start-

ing new machinery of any kind, and unfortunate though they were, it will be but a few days until all is in readi-ness to begin the treatment of ore at the smelter, as the disabled blowing engine will be ready for use by the time it is needed, anyhow.

UNCLE SAM IMPROVING. Good Ore Bodies Opened and Ship-

ments Increasing.

ments Increasing.

President John Dern and Manager Chipman spent most of Sunday underground at the Uncle Sam Consolidated property, and before leaving camp were accorded a peep into the workings of the May Day. At the Uncle Sam, Mr. Dern said yesterday, the showing is better than it has been for a long time past. Good ore bodies are now being stoped in both the Uncle Sam and Humbug portions of the mine. In the raise where the recent gold quartz was discovered alongside of the lead-silver chute, no attempt is being made to chute, no attempt is being made to mine the former, as it would interfere with the extraction of the latter. The handling of the gold rock will come

property and ore is being sent to market in much greater quantity than formerly. Ten carloads are now at oren route to the sampler and other good shipments will follow at regular intervals. Under the system and effective methods being employed by Superinvals. Under the system and effective methods being employed by Superintendent Legg, Mr. Dern says the mine is being rapidly brought to the front and he believes the future has much in

Speaking of conditions at the May Day, Mr. Dern said that the new devel-opments below the tunnel level were of substantial nature and he saw no eason why the mine should not become quite a heavy shipper when the super-ntendent got things shaped up for it.

ANNIE LAURIE WINS SUIT. Ross Company Has to Pay for Damaging Former's Property.

A decision was handed down by the supreme court yesterday sustaining the action of the lower court, which rendered judgment in favor of the plaintiff in the case of the Annie Laurie Mining company against the Ross Min-ing & Milling company, appellant. The action was brought to recover damages harley Morrison, L. N. Morrison and to the extent of \$1,500 from the defend ant for injuries which are alleged to have been sustained to a flume con-struction at the Annie Laurie mine, which was used to convey water to a power plant for the purpose of generat-ing power with which to run the plain-tiff's quartz mill.

It was also sought by the action to obtain relief by injunction to prevent the defendant company from causing rocks to fall upon the flume in the operation of a mine above the flume. Work was begun on the Ross com-pany's property and rocks began fall-ing below, damaging the flume. It was stopped after two hours and an injunction granted. The suit was brought to determine whether one company should be permitted to damage the own property. The lower court re-turned a judgment in favor of the plaintiff and the decision was affirmed by the supreme court yesterday.

The opinion was written by Justice
Bartch and concurred in by Justice
Baskin and Judge Hart, rendering judgment in favor of the plaintiffs for the sum of \$58.50.

Ore and Bullion.

Ore and bullion settlements in this city esterday, as reported by McCornick & 20., amounted to \$152,900, as follows: Silrer, lead, gold and copper ores, \$105,200 ase bullion, \$11,400; gold bars, \$36,300.

Metal Market.

Silver, 50½ cents per ounce. Copper, 11 cents per pound; New York, \$11.60 to \$11.70 per 100 pounds. Lead, \$3.50 per 100 pounds; New York, \$4.12½.

MINING STOCK EXCHANGE.

Week Opens With May Day as the Only Stock to Score Advance. Only Stock to Score Advance.

The week on the mining exchange opened yesterday with the sale of 50,995 shares of stock for \$29,970.25. With the single exception of May Day, which moved up from 23%c to 25%c, the market was utterly devoid of strength. Lower Mammoth, in the face of the best news that has come from the mine management in a year, was hammered down from \$1.55 to \$1.49.

Daly-West was traded in around \$49.75, Grand Central went at \$4.95, Daly-Judge at \$10. Washash at \$1.34% to \$1.31.

Century continued weak at \$5c to \$7c, California was quiet and unchanged, while Ben Butier, with 6,000 shares changing hands, moved up from 10%c to 11%c.

of the Century mill for October and valued at about \$1.500, reached the sampler yesterday. The final bar of gold bullion for two.

Manager Joe Farren of the Glasgow & Western company's properties came in from Cherry Creek and Golconda, Nev., yesterday morning and left for the Montreal property, just out of Milford, in Beaver county, last night.

M. C. Harrington, superintendent of the Keystone company's property at Park City, was down from camp yesterday on company business. The new shaft is now going down with three shifts, while the new hoisting plant is being installed.

H. W. Horne, the mineral surveyor, has

Mining Notes.

One call and Saturday hours prevail on he mining exchange today.

Three cars of Eagle & Blue Bell ore were released from the sampler yester-Bingham reached the market with five carloads of ore yesterday.

The Taylor & Brunton sampler was yeterday in receipt of five cars of ore from Singham, three from Tintic, three from Conpah and one from Fish Spring Deep Creek.

turn to the Park again tomorrow.

Louis H. Moore, president of the United Biugham Mining company, came in from Cincinnati on Sunday on his way to the coast. Accompanied by Manager H. S. Joseph, he will visit the property today.

H. S. Joseph, L. E. Bamberger and Ed H. Meade have returned from an inspection of the new strike in the West Century, at Park valley. Mr. Joseph says that it is all that has been claimed for it.

A carload of concentrates, the product of the Century mill for October and valued at about \$1,500, reached the sampler yesterday. The final bar of gold bullion for the month is expected along in a day or two.

H. W. Horne, the mineral surveyor, has just returned from Beaver county, where he made preliminary surveys on nine claims for the Hub Mining company, in Star district, and completed patent surveys on eight claims for the Estella company

uring the month of October the Daly During the month of October the Dalysest company marketed 7,000 tons of ore d concentrates that netted \$200,000—arly one-fifth as much as was proceed during the entire year of 1901, both tonnage and value. The Daly-West is we entitled to rank with the best procing and best paying mines in the untry.

Washington, Nov. 3.—The treasury department has received information of the arrival at New York of thirty Cuban children en route to the "Universal Brotherhood school" at Point Loma, near San Diego, Cal. Assistant Secretary Taylor has directed that the children be detained in New York until the character and responsibility of the school can be character.

St. Louis, Nov. 3.—The case of Colonel Edward Butler, millionaire politician, in-dicted on a charge of bribery, was today sent to Fulton for trial on a change of

HAIR NATURALLY ABUNDANT.

When It Is Free of Dandruff It Grows Luxuriantly. Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the germ is Newbro's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It allays itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect"—dandruff. Send 10 cents in stamps for sample. The Herpicide Co., 40 Jefferson Ave., Detroit, Mich.

LOWER PRICES AT THE OPENING

Election Week Had Some Influence Upon the Stock Market.

EXCHANGE WAS BOOSTED UP

RALLY AT THE CLOSE WITH A FIRMER UNDERTONE.

New York, Nov. 3.—Movements in the stock market today were characterized by the various influences incidental to election week, together with other and perhaps more potent reasons. Sterling exchange reached the highest point in the present movement, some demand bills being sold at 4.87, which is within a quarter of a cent of the figure at which gold can admittedly be exported profitably. The accumulation of commercial bills over Sunday was barely equal to the demand. Paris exchange on London declined ½ cent, while bar gold advanced 8 pence in London. It was not dealed that some banks and firms were earnestly conpence in London. It was not denied that some banks and firms were earnestly considering shipments of gold in the very lear future. The rise in exchange was loubtless in a great measure responsible for the check on the stock market operations, though the volume of business for the day was not lower than for some lays past.

the day was not lower than for some days past,
Opening prices were lower, the greatest decline being in Louisville & Nashville, which sold off over a point. Less extensive declines were shown by Atchison, Baltimore & Ohio, Missouri Pacific, St. Paul, Union Pacific and Reading. The demand for this latter stock was large, but offerings were free. Manhattan, a feature of last week's pool operations, made a slight fractional decline, and the other transactions were heavy. Later in feature of last week's pool operations, made a slight fractional decline, and the other transactions were heavy. Later in the morning fresh selling pressure developed and some of the stocks named went lower. London bought about 10,000 shares on the decline. The only industrial issue that displayed any activity was United States Steel, the heaviness of which was presumably due to reports of disturbing conditions in the steel and iron industry. A reminder of this was furnished by the American Tin Plate, which announced a material cut in the price of its products. Trading in the early afternoon was even more circumscribed and professional, with a partial resumption of pool operations in a few issues, chiefly Toledo, St. Louis & Western.

Traders professed to see indications of "good" selling in Manhattan and other Gould stocks. Commission houses, as well as brokers with wide connections, were out of the market, though the liquidation in Baltimore & Ohlo and Louisville & Nashville seemed to come from the west. In the final hour a general attack upon soft coal stocks and St. Paul brought prices to the lowest level of the day. The rally toward the close suggested considerable sovering, as well as a better view of the political situation, with the result that a firmer tone was manifested at the end.

Prices of bonds were reactionary for the

GRAIN AND PROVISIONS.

ly large scale, with considerable doing in the way of liquidation. Statistics were all against higher prices, lower cables, heavy world's shipments, large increase in visible and large primary receipts, causing extreme weakness at the opening. Heavy shipments from Russia was one of the main depressing influences. Good cash demand in the northwest, with fair export demand, was a strengthening factor. Longs liquidated freely through the day, but toward the end shorts covered in order to even up over the holiday, while there was some buying on the large Duluth business. The close was steady to firm. December opened 100% to 100% of May declined to 71%. There was a slight raily toward the end of the session and the close was at 71½ 11%, with a loss of ½c.

There was a fair trade in corn, but prices were weak and lower, due principally to lower cables and weakness in wheat. December closed ½c lower at 50%.

Oats ruled weak in sympathy with the lower prices in other grains. The close was steady, with December ½c lower at 20%, 20%.

was steady, with December 4c lower at 29%(29%). In provisions conditions were against higher prices, receipts of hogs at the yards being smaller than estimated and corn lower. The close was steady, with January pork 5c lower, lard 7½c lower and ribs unchanged.

The jeading futures ranged as follows:
